

*Clean, Healthy Air
for You and Your Family*

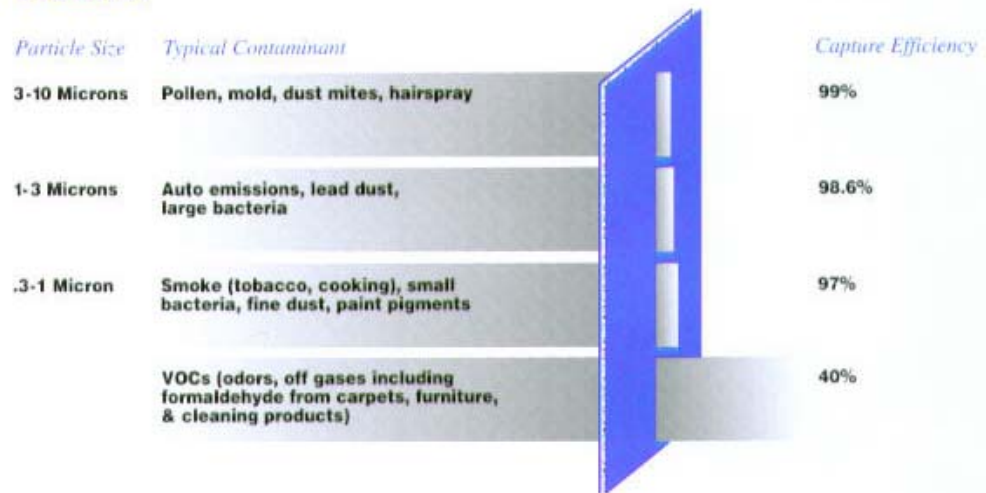

Dynamic
Air Cleaner.

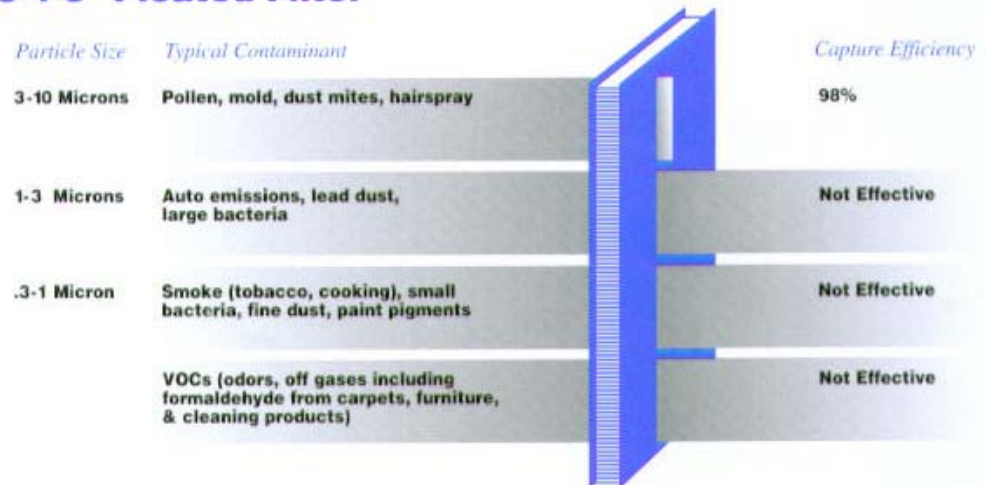

Dynamic Air Cleaners remove dangerous airborne particles other air cleaning systems miss... including odors, VOCs, smoke, bacteria, allergens, fine dust, molds and pollen.

Dynamic Air Cleaner

What you don't see can hurt you. Consider this important fact when choosing an air cleaner... 98% of airborne particles (the most damaging to lungs) are 1 micron in size or smaller.

Competitor's 4-6" Pleated Filter

Competitor's Electrostatic Precipitators

Electrostatic Precipitators are another cleaning system on the market. Although precipitators are initially effective, their efficiency drops significantly between required cleanings. Also, precipitators do not remove VOCs and can produce harmful Ozone.

The key to cleaner, healthier air is simple. Remove harmful particles and chemicals from the air you and your family breathe.

"Indoor levels of air pollutants may be two to five times, and in some cases more than 100 times higher than outdoor levels..."

Environmental Protection Agency

"50% of all illnesses are either caused by, or aggravated by polluted indoor air..."

The American College of Allergists

"The incidence of Asthma has increased 50% in the past ten years. Contributing factors include indoor allergens and indoor pollutants."

Global Initiative for Asthma, a collaboration of the National Heart, Lung, and Blood Institute, NIH and the World Health Organization

Offering unparalleled 97% capture efficiency at .3 micron sizes, Dynamic Air Cleaners feature a unique air scrubbing combination of electrostatic polarization and activated carbon. With this patented technology, Dynamic Air Cleaners are providing clean, healthy air in thousands of commercial, hospital and residential applications throughout the world.

Dynamic Air Cleaners install quickly without costly ductwork reconfiguration, turning your home's central system into a whole house air cleaner, while saving you hundreds of dollars versus other systems.

Your home is now cleaner and fresher with less dust, germs and odors. Allergy and asthma sufferers experience immediate, dramatic improvements.

Dynamic Air Cleaners pay for themselves by increasing the value and marketability of your home, as confirmed by numerous appraisal studies.

Reliable, proven performance backed by superior 5 year warranty.

No other air cleaner provides the performance benefits of Dynamic Air Cleaners.

That's why more and more smart homeowners are choosing Dynamic Air Cleaners for cleaner, healthier air.
